

TECHNICAL DATASHEET

Chukum Water

20 L CONTAINER

PRODUCT DESCRIPTION

The chukum water is an aqueous resin extracted from the bark of the chukum tree with a very characteristic dark purple color.

CHEMICAL COMPOSITION

Aqueous extract that contains a percentage of the total solids contained in the chukum plant, among which are saponins, polyphenols, tannins, carbohydrates and minerals.

PHYSICAL PROPERTIES

Liquid appearance, intense dark purple color, 100% biodegradable material, foamy natural paint.

PERFORMANCE FORMULA

1 container (20 lts) = 12 m², depending on the thickness of the putty that is required.

APPLICATION

It is mixed with Chukum base and applies over the surface in the finish form in patch or rustic flattened.

TECHNICAL DATASHEET

Chukum Water

20 L CONTAINER

USES

It applies mainly on cement based surfaces reducing fungus formation where it is applied. It produces characteristic tone appearance from its natural dyes.

NOTE

Chukum water, being a natural resin, can have color variation, however, it does not lose its dyeing properties, so it can last stored, in suitable conditions, for more than 4 months. It is recommended to shake before using. If the product has been at rest for some time, it is recommended to shake between buckets prior to use.

CAUTION

In case of contact with eyes, rinse immediately with plenty of water. During storage, avoid exposing the product to extreme conditions. Do not ingest, if swallowed seek medical advice immediately.
